

Linking student Common App accounts - Step 2: within MaiaLearning

Modified on: Thu, 30 Jul, 2020 at 3:14 PM

Students must set up Common App accounts and complete the FERPA waiver before linking the Common App account to MaiaLearning. To set up a Common App account, see **[Step 1: Within Common App](https://support.maialearning.com/support/solutions/articles/44001772741-link-maialearning-to-common-app-step-1-within-common-app)** (<https://support.maialearning.com/support/solutions/articles/44001772741-link-maialearning-to-common-app-step-1-within-common-app>).

Once the steps in Common App are complete:

- Log in to MaiaLearning.com
- Click **Profile** on the top right corner

- Scroll down to the Application Systems section and select the link that says "Click to link your account"

Application Systems

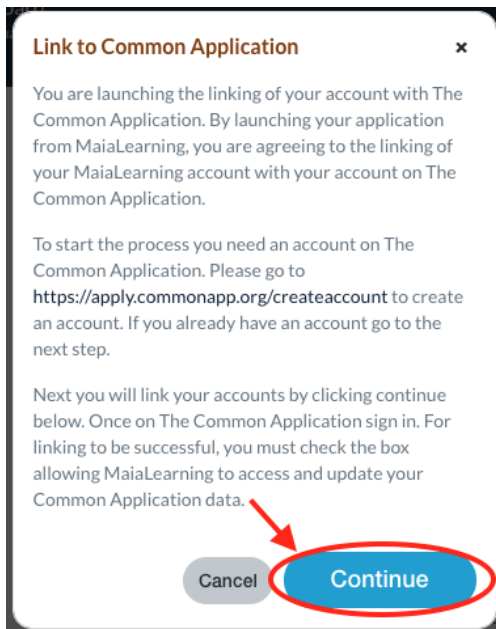

The different application systems allow you to link your accounts to your school. Establishing this link allows counselors to send your application documents electronically.

Off On

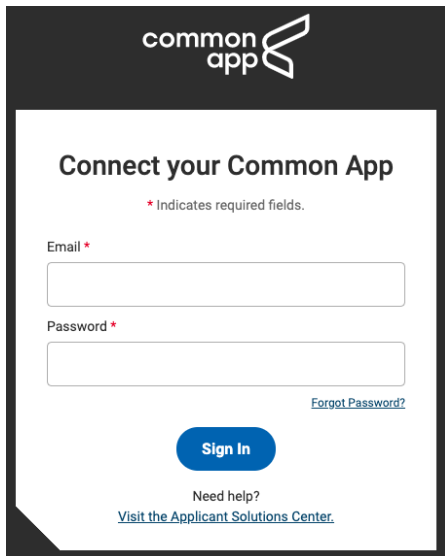

Your Account is not connected. [Click to link your account](#)

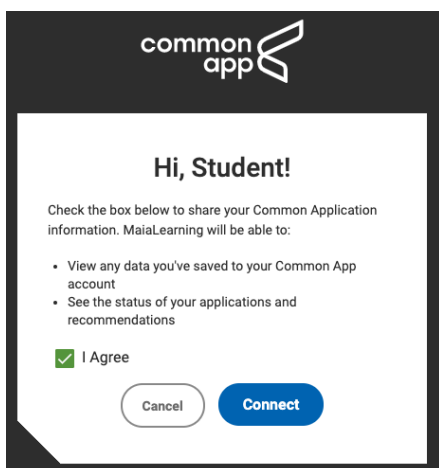

- A pop up window will appear. Click "Continue".

- You will be redirected to the Common App site. Log in using your **Common App account** username and password.

- A pop-up will be presented. Check the box next to "I Agree" to share your Common App information with MaiaLearning, and click "Connect".

- The linking process is complete. You will be returned to MaiaLearning as the Application Systems section of your profile will now display your Common App ID, FERPA Status, and Fee Waiver Status (if you requested one).
