Budget

Bill will have the official budget in hand on February 7. We may not get two class size relief positions. We discussed what we could do to make up for the money that those positions represent.

The numbered items below are a recap of the possibilities discussed:

1. Pay Arts teacher with mill levy money
2. Take the '98 mill levy money and convert towards salary of the technology coordinator
3. Use Language Arts teacher to fill in for one of the retiring social studies teachers
4. Cutting some department funds for items like paper, copying, materials
5. Increase student fees
6. Identify positions which can be cut which community could fundraise and backfill (or use a volunteer)
7. Go Paper free

We also need another security person here so that we have someone here at night when we run events. Bill will ask for three positions, including a security person and ½ time psychologist.

The meeting adjourned at 6:00 P.M.
